

I am opposed to the FCC attempt to modify the state of Indiana's telemarketing law. I received an average of about 5 calls a day, some as early as 7 am, some as late as 11 pm, before signing up for the Indiana plan. Now I receive about 5 calls a month, and from people I want to hear from!

Please, do not change a good thing. The telephone is a wonderful tool, it should not be an unwelcome intrusion into my home. Please allow me to choose with whom I want to communicate, and with whom I wish to do business.
